Moodlerooms for ProEd

Moodlerooms makes it easy for corporations, government agencies and non-profits to teach and learn online.

In today’s working world, maintaining a training program is no longer optional—it’s a required component for developing, retaining and attracting the most talented employees.

A static training course will no longer do. Employees need a learning environment with dynamic content that makes it easy to engage and collaborate with like-minded peers with the same goals of building knowledge, improving their skillsets and advancing their careers.

That’s where Moodlerooms comes in. We provide a cloud-based platform that makes it easy to deliver an engaging and high-quality online learning environment with limited budget, personnel and IT resources.

**The Benefits of Moodlerooms**

**Limiting Your Investment:** With our Software-as-a-Service (SaaS) model, we take care of the heavy lifting, so you’ll never have to hire a huge staff or build your own cloud infrastructure.

**Reducing Time and Effort:** With a modern user interface and streamlined workflow, it’s easier than ever for trainers to build and manage their courses.

**Flexibility:** With hundreds of learning tools, you can build diverse, yet easy-to-navigate training courses to fit the specific needs of your employees.

**Sustainability:** Moodlerooms’ cloud-based SaaS model will serve your training programs for the long-term by ensuring access to the most stable Moodle code hosted in an industry-leading datacenter with a 99.9% uptime guarantee.

“We continue to use Moodlerooms because of their willingness to meet our needs. Moodlerooms has listened to our needs and integrated features and functions that we consider critical to the success of our program.”

- Belinda Gimbert
  Project Director and Principal,
  Project KNOTTIT

The Benefits of Moodlerooms

**Moodle**- The core of your platform: We use Moodle, the world’s most popular learning software. With hundreds of features and more than 68 million users globally, you’re sure to satisfy the most diverse training needs.

**Enterprise Features**- Do more, learn more: Sure, Moodle provides hundreds of powerful tools, but we’ve made the most popular ones even easier to use. We even offer our own in-house features that provide more unique ways to engage learners.

**The Cloud**- There when you need it most: Blackboard’s industry-leading global cloud delivers a 99.9% uptime guarantee, so you never have to worry about maintenance or security and your training courses are accessible 24/7.

**Implementation**- To get you up and running: No matter how ambitious a training program, we have a solution to fit your needs; and if you’re coming from another LMS, we can handle that, too.

**Training**- Giving you the knowledge you need: Tiered training options for administrators, trainers, learners and any other staff involved with your program.

**Support**- Help when you need it: A dedicated team of experts will handle all of your Moodlerooms needs, from troubleshooting to configuration and more.

How Can Moodlerooms Help You?

**Corporations**: Moodlerooms serves companies of all shapes and sizes and a variety of different programs, including internal sales training, professional development, or even companies looking to sell certifications for specific skills online.

**State/Municipal Governments and Agencies**: Many mission critical state/municipal governments and agencies have turned to Moodlerooms over the years to support very niche training programs, including police departments, fire departments, search and rescue, and many more.

**Non-Profit Organizations**: Whether you need to provide internal professional development or skills/expertise certifications to the public, Moodlerooms has supported training programs for non-profits since inception.
